ZATUCHNI, JACOB. Portable chest roentgenography and its value in acute myocardial infarction, 436 (Annot.)

Subject index*

A

Abscesses, myocardial (Sanson et al.), 301
Acceleration ballistocardiography, precordial accelerography and; fundamentals in vibrocardiography (Lohr et al.), 108
Accelerographic amplitudes over apex in mitral and aortic stenosis, comparison of (Lohr et al.), 121
Accelerography, precordial, and acceleration ballistocardiography; fundamentals in vibrocardiography (Lohr et al.), 108
Acidosis, uremic: some alternative views (Findley and Briggs), 142 (Annot.)
Alcohol, acute effect of, on circulation and on oxygen metabolism of heart (Ganz), 494
Amyl nitrite, systemic hemodynamic effects of, in normal man (Perloff et al.), 460
Aneurysm, large, of mitral valve (Turner and Davies), 538
Aneurysms, congenital, of ventricular septum (Shumacker and Glover), 405
Angina pectoris in father and son (Levine), 49
with coexisting skeletal chest pain (McElroy), 296
Angiocardiography, selective, in diagnosis of varicosity of pulmonary veins (Vengsarkar et al.), 396
Angiotensin, evaluation of, as therapeutic agent (Singer et al.) 566
Animal, intact, effect of Na_3EDTA-induced hypocalcemia upon general and coronary hemodynamics of (Maxwell et al.), 82
Annotations, 138, 272, 432, 568, 717, 835
Announcements, 146, 292, 438, 576, 724
Anticoagulant therapy for myocardial infarction, evaluation of (Wright and Fahs-Beck), 842 (Letter to Editor)
treatment, theory and practice of, 145 (B. Rev.)
Antihypertensive agent, pargyline hydrochloride as (Lee), 833
Aorta, ventricular, right, and biventricular pulmonary trunk, uncommon form of transposition (Elliott et al.), 478
Aortic and coronary atherosclerosis, observations and correlations with; atherosclerosis in mesenteric circulation (Reiner et al.), 200
insufficiency secondary to spontaneous rupture of fenestrated leaflet (Marcus, et al.), 675
stenosis and mitral insufficiency, murmurs of, masquerading as one another (Burch and Phillips), 439
A_2-OS interval, significance of rate and output related variations in (Schillig), 644
Apexcardiogram, normal, and its second derivative, comparison of, with apexcardiogram and accelerogram in aortic stenosis (Lohr et al.), 123
Arm, investigation to devise technique for production of maximal flows of blood in (Mackay and Walker), 509
Arrhythmias, cardiac, technique for study of (Smirk and Wallis), 68
Arterial dilution curve of valvular regurgitation, studies in cardiovascular model on (Levinson et al.), 767
Arteries, retinal, caliber of, in hypertension (Byrom), 727
Arteriography, coronary, postmortem, technique for (Brascho), 375
Artery, brachial, demonstration of in vivo compressibility of, in man (Mackay and Walker), 517
coronary, disease, occlusive, stress and (Pearson), 836 (Annot.)
pulmonary, reflex vasomotor activity during unilateral occlusion of (Aramendía et al.), 53
sinus node, study of retrograde pressure and pulse in (James and Nadeau), 343
Artery-ventricular, coronary, communications, persistent venous valves, maldevelopment of right heart, and (Kauffman and Andersen), 664
A-S conduction, concealed, interpolation of atrial premature beats of infra-atrial origin due to (Fleischmann), 309
Ataxia, Friedreich's observations on cardiovascular involvement in (James and Fisch), 164
Atherogenesis, "emergency reaction" in thrombogenesis and in (Shimamoto), 572 (Annot.)
Atherosclerosis in mesenteric circulation. Observations and correlations with aortic and coronary atherosclerosis (Reiner et al.), 200
Atrial myxoma, right (Morrissey et al.), 4
premature beats of infra-atrial origin, interpolation of, due to concealed A-S conduction (Fleischmann), 309
puncture, left, transseptal, intracardiac phonocardiography of left heart by (Beuren and Apitz), 597
right, left ventricular–, communication in complete transposition of great vessels (Elliott et al.), 29
tachycardia, paroxysmal, with block, digitalis-associated, countershock conversion of (Corwin et al.), 804
variety of isoproterenol myocardial necrosis (Rona et al.), 392
Atrioventricular communications, histopathologic study of, in case of WPW with incomplete left bundle branch block (Lev et al.), 399
conduction, effects of breathing oxygen on (Daly et al.), 321
Atrium, right and left, connecting pathways between sinus node and A-V node and between, in human heart (James), 498
Autopsy study of heart disease in Philippines General Hospital. Based on review of 6,000 consecutive cases (Imperial and Felarca), 470
A-V dissociation. Proposal for comprehensive classification and consistent terminology (Pick), 147

*July, pp. 1-146; August, pp. 147-292; September, pp. 293-438; October, pp. 439-578; November, pp. 579-724; December, pp. 725-864.

A-V—Cont'd
nodal tachycardia with block, relationship between digitalis and (Castellanos and Lemberg), 605
node, connecting pathways between sinus node and, and between right and left atrium in human heart (James), 498

B

Ballistocardiography, acceleration, precordial accelerography and; fundamentals in vibrocardiography (Lohr et al.), 108
Bantu, South African, hematocrit, hemoglobin level, and coronary heart disease in (Walker), 283 (Letter to Editor)
Beats, premature, atrial, of infra-atrial origin, interpolation of, due to concealed A-S conduction (Fleischmann), 309
Biatriatum, cor triloculare (Mandel and Hirsch), 104
Biopsy, renal, percutaneous, value of, in hypertensive subject (Roland and Dimond), 140 (Annot.)
Birth defects, 722 (B. Rev.)
Block, bundle branch, left, incomplete, histopathologic study of atrioventricular communications in case of WPW with (Lev et al.), 399
on cardiac slowing at critical slow heart rate (Vesell and Lowen), 329
countershock conversion of digitalis-associated paroxysmal atrial tachycardia with (Corwin et al.), 804
heart, complete, permanent implantable pacemakers in treatment of (Litwak), 718 (Annot.)
relationship between digitalis and A-V nodal tachycardia with (Castellanos and Lemberg), 605
Blood flow, peripheral, alterations in, consequent to maximal exercise (Wilmore and Horvath), 353
pulsatile, symposium on, review of papers and discussions presented at (Attinger), 280
investigation to devise technique for production of maximal flows of, in arm (Mackay and Walker), 509
pressure, cardiac hypertrophy, renal failure, and thiamine deficiency, role of, in "coronary heart disease" (Raab), 694
variability of: basal and casual measurements in adult twins (Osborne et al.), 176
vessels, cerebral, human, methods for qualitative and quantitative study of; studies in cerebral circulation (Hale and Reed) 226
volume, 145 (B. Rev.)
volume, pulmonary, effect of exercise on (Chaffee et al.), 657
Book reviews, 145, 290, 438, 575, 721, 847
Brachial artery, demonstration of in vivo compressibility of, in man (Mackay and Walker), 517
Bundle branch block, left, incomplete, histopathologic study of atrioventricular communications in case of WPW with (Lev et al.), 399
on cardiac slowing at critical slow heart rate (Vesell and Lowen), 329
Bypass, complete, of right heart (Robicsek et al.), 792

C

Carbohydrate, dietary, and ischemic heart disease (Yudkin), 835 (Annot.)
Carcinoidosis, endomyocardial fibrosis and. Common denominator? (Crawford), 273 (Annot.)
Cardiac arrhythmias, technique for study of (Smirk and Wallis), 68
changes in myopathy (Wahi), 748
effects of synthetic oxytocin (Syntocinon) (Covino), 627
necrosis, isoproterenol, endogenous factors and (Rona et al.), 389
output and its regulation; circulatory physiology, 847 (B. Rev.)
pacemaker, implanted, observations in patients with. I. Clinical experience (Dressler et al.), 325
indications for surgical implantation of (Dack), 582
pacemakers, artificial, use of (Schwedel and Escher), 136
patients, evaluation of preanesthetic medication in (Mazzia), 269
performance, effect of exercise on, in human subjects with congestive heart failure (Levine et al.), 731
resuscitation, epinephrine in (Pearson and Redding), 210
slowing, bundle branch block on, at critical slow heart rate (Vesell and Lowen), 329
valves, normal and diseased, dynamics of (Amador et al.), 777
work, role of, and of sympathogenic catecholamines in clinical syndromes of "coronary heart disease" (Raab), 690
Cardiografia, electrovector, clinica, 145 (B. Rev.)
Cardiology, primer of, 291 (B. Rev.)
Cardiomegaly, thymolipoma simulating: opacification of tumor by cineangiocardiography (Gunnells et al.), 670
Cardiopulmonary diseases, advances in. Volume I, 721 (B. Rev.)
Cardiorespiratory response to severe effort, effect of digoxin in normal man on (Russell and Reeves), 381
Cardiotoxicity, isoproterenol, effect of high-fat and high-carbohydrate diet on (Rona et al.), 391
Cardiovascular and renal diseases, yearbook of, 438 (B. Rev.)
disease, dental procedures of interest to physician in management of patients with (Bender and Sellzer), 679
involvement in Friedreich's ataxia, observations on (James and Fisch), 164
malformations, complex, associated with corrected type of transposition of great vessels (Anselmi et al.), 614
model, studies in, on arterial dilution curve of valvular regurgitation (Levinson et al.), 767
responses to inhalation of vasoactive substances, problems in evaluation of (DePasquale and Burch), 720 (Annot.)
Catheter electrode, pacemaker, rapid method for insertion of (Solomon and Escher), 717 (Annot.)
Cerebral circulation, studies in. Methods for qualitative and quantitative study of human cerebral blood vessels (Hale and Reed), 226
vascular insufficiency, therapeutic modalities in management of (Fazekas and Alman), 263
Chest pain, skeletal, coexisting, angina pectoris with (McElroy), 296
roentgenography, portable, and its value in acute myocardial infarction (Zatuchni), 436 (Annot.)

Childhood, mitral stenosis in: clinical and therapeutic aspects (Reals et al.), 15
Cineangiocardiography, opacification of tumor by; thymolipoma simulating cardiomegaly (Gunnells et al.), 670
Cineangiofluorography, measurement of right ventricular volume by (Reedy and Chapman), 221
Cinefluorography, rotational, of heart and lungs (Dees et al.), 485
Circulation, acute effect of alcohol on, and on oxygen metabolism of heart (Ganz), 494
cerebral, studies in. Methods for qualitative and quantitative study of human cerebral blood vessels (Hale and Reed), 226
mesenteric, atherosclerosis in. Observations and correlations with aortic and coronary atherosclerosis (Reiner et al.), 200
peripheral, 438 (B. Rev.)
Circulatory effects of chronic pulmonary emphysema (Evans et al.), 741
physiology: cardiac output and its regulation, 847 (B. Rev.)
Clinical pathologic conference (Eliot et al.), 542
(Glagov et al.), 253
(Rowe, et al.), 809
Columbia, Cali, pathology of heart diseases of undetermined etiology which occur in (Correa et al.), 584
Communication, atrioventricular, histopathologic study of, in case of WPW with incomplete left bundle branch block (Lev et al.), 399
coronary artery-ventricular, persistent venous valves, maldevelopment of right heart, and (Kauffman and Andersen), 664
Complexes, extrasystolic, ventricular, electrogenesis of morphologies of. I. Activation of interventricular septum (Anselmi et al.), 363
Conduction, A-S, concealed, interpolation of atrial premature beats of infra-atrial origin due to (Fleischmann), 309
atrioventricular, effects of breathing oxygen on (Daly et al.), 321
Congestive heart failure, effect of exercise on cardiac performance in human subjects with (Levine et al.), 731
Contractile tension in myocardium (Badeer), 432 (Annot.)
Cor pulmonale, problems in diagnosis of (Phillips and Burch), 818
triloculare biatriatum (Mandel and Hirsch), 104
Coronary, aortic and, atherosclerosis, observations and correlations with; atherosclerosis in mesenteric circulation (Reiner et al.), 200
arteriography, postmortem, technique for (Brascho), 375
artery disease, occlusive, stress and (Pearson), 836 (Annot.)
artery-ventricular communications, persistent venous valves, maldevelopment of right heart, and (Kauffman and Andersen), 664
general and, hemodynamics of intact animal, effect of Na_3EDTA-induced hypocalcemia upon (Maxwell et al.), 82
heart disease, 290 (B. Rev.)
mortality, extremes of, in ethnic groups in Johannesburg, South Africa (Walker), 293
hemodynamic, systemic and, effects of diazoxide (Rowe et al.), 636
occlusion, acute, effects of, on performance of right and left ventricles in intact unanesthetized dogs (Rushmer et al.), 522
sinus, anomalous pulmonary venous drainage in relation to left superior vena cava and (Snellen and Dekker), 184
Coronary—Cont'd
vascular resistance, effect of lanatoside C on (Gracey and Brandfonbrener), 88
"Coronary heart disease," nonvascular metabolic myocardial vulnerability factor in (Raab), 685
Crucifixion, death by (DePasquale and Burch), 434 (Annot.)
Cuore, del pericardio, e dei vasi sanguiferi, elementi di anatomia generale e di embryologia del, 722 (B. Rev.)

D

Death by crucifixion (DePasquale and Burch), 434 (Annot.)
Dental procedures of interest to physician in management of patients with cardiovascular disease (Bender and Seltzer), 679
Diazoxide, systemic and coronary hemodynamic effects of (Rowe et al.), 636
Diet, high-fat and high-carbohydrate, effect of, on isoproterenol cardiotoxicity (Rona et al.), 391
Dietary carbohydrate and ischemic heart disease (Yudkin), 835 (Annot.)
control of hypercholesteremia, 721 (B. Rev.)
fat and general public (Walker and Sherman), 272 (Annot.)
Digitalis and A-V nodal tachycardia with block, relationship between (Castellanos and Lemberg), 605
Digitalis-associated paroxysmal atrial tachycardia with block, countershock conversion of (Corwin et al.), 804
Digoxin, effect of, in normal man on cardiorespiratory response to severe effort (Russell and Reeves), 381
Dilution curve, arterial, of valvular regurgitation, studies in cardiovascular model on (Levinson et al.), 767
Displacement and acceleration, precordial, methods for recording (Lohr et al.), 108
Dissociation, A-V. Proposal for comprehensive classification and consistent terminology (Pick), 147
Diuretics, mercurial, evidence of extrarenal action of; effect of local injection of drugs on uptake and excretion of intradermally injected dye (Threefoot), 73
DL-serine-N^2-isopropylhydrazide (RO 4-1038), monoamine oxidase inhibitor, clinical experience with, in treatment of hypertension (Maxwell et al.), 151
Dogs, unanesthetized, intact, effects of acute coronary occlusion on performance of right and left ventricles in (Rushmer et al.), 522
Drainage, venous, pulmonary, anomalous, in relation to left superior vena cava and coronary sinus (Snellen and Dekker), 184
Drug therapy of Stokes-Adams syndrome (Dack), 579
Drugs, current treatment of hypertension with (Wolf et al.), 414
effect of local injection of, on uptake and excretion of intradermally injected dye. Evidence of extrarenal action of mercurial diuretics (Threefoot), 73
Dye, intradermally injected, effect of local injection of drugs on uptake and excretion of. Evidence of extrarenal action of mercurial diuretics (Threefoot), 73

E

Editorial. A-V dissociation. Proposal for comprehensive classification and consistent terminology (Pick), 147

Editorial—Cont'd
Caliber of retinal arteries in hypertension (Byrom), 727
Management of Stokes-Adams syndrome (Dack), 579
Murmurs of aortic stenosis and mitral insufficiency masquerading as one another Burch and Phillips), 439
Pulmonary hypertension. Individual and species variability relative to vascular reactivity (Grover et al.), 1
Effort, severe, effect of digoxin in normal man on cardiorespiratory response to (Russell and Reeves), 381
Electrocardiogram in infarction of anterolateral papillary muscle (Phillips et al.), 338
use of, in exercise test (Simonson), 552
Electrocardiographic changes in hypertrophic subaortic stenosis which simulate myocardial infarction (Prescott et al.), 42
criteria for diagnosis of cor pulmonale due to emphysema (Phillips and Burch), 830
features in clinical and experimental ventricular pre-excitation (Rogel and Kaplinsky), 453
intervals during first week of life (Walsh), 36
manifestations of emphysema (Phillips and Burch), 827
Electrode, catheter, pacemaker, rapid method for insertion of (Solomon and Escher), 717 (Annot.)
endocardial, bipolar, interim pacing of heart by (Dack), 582
Electrogenesis of morphologies of ventricular extrasystolic complexes. I. Activation of interventricular septum (Anselmi et al.), 363
Electrolytes, clinical metabolism of body water and, 848 (B. Rev.)
role of, in "coronary heart disease" (Raab), 694
Electrosleep as method of neurotropic therapy of patients with hypertensive disease (Sergeev), 138 (Annot.)
Electrovector cardiografia clinica, 145 (B. Rev.)
Emboli, pulmonary, proposed study for prevention of (Prinzmetal and Barach), 573 (Annot.)
"Emergency reaction" in thrombogenesis and in atherogenesis (Shimamoto), 572 (Annot.)
Emphysema, electrocardiographic manifestations of (Phillips and Burch), 827
pulmonary, chronic, circulatory effects of (Evans et al.), 741
diagnosis of cor pulmonale due to (Phillips and Burch), 820
Endocarditis, treatment of (Louria), 429
Endomyocardial fibrosis and carcinoidosis. Common denominator? (Crawford), 273 (Annot.)
Epinephrine in cardiac resuscitation (Pearson and Redding), 210
Etiological diagnosis, fibrillatory wave size as clue to (Culler et al.), 435 (Annot.)
Exercise, effect of, on cardiac performance in human subjects with congestive heart failure (Levine et al.), 731
on pulmonary blood volume (Chaffee et al.), 657
maximal, alterations in peripheral blood flow consequent to (Wilmore and Horvath), 353
test, use of electrocardiogram in (Simonson), 552
Extrarenal action of mercurial diuretics, evidence of; effect of local injection of drugs on uptake and excretion of intradermally injected dye (Threefoot), 73

F

Failure, heart, congestive, effect of exercise on cardiac performance in human subjects with (Levine et al.), 731
Failure, heart—Cont'd
on lack of meaning of (Soloff), 276
Fat, dietary, and general public (Walker and Sherman), 272 (Annot.)
meal, large, changes in serum lipoproteins after, in normal individuals and in patients with ischemic heart disease (Harlan and Beischer), 61
Fats and lipids, role of, in "coronary heart disease" (Raab), 695
Fenestrated leaflet, aortic insufficiency secondary to spontaneous rupture of (Marcus et al.), 675
Fibrillation (Williams), 569 (Annot.)
Fibrillatory wave size as clue to etiological diagnosis (Culler et al.), 435 (Annot.)
Fibrosis, endomyocardial, and carcinoidosis. Common denominator? (Crawford), 273 (Annot.)
Flow, blood, peripheral, alterations in, consequent to maximal exercise (Wilmore and Horvath), 353
Flows, maximal, of blood in arm, investigation to devise technique for production of (Mackay and Walker), 509
Friedreich's ataxia, observations on cardiovascular involvement in (James and Fisch), 164

G

Great vessels, complex cardiovascular malformations associated with corrected type of transposition of (Anselmi et al.), 614
left ventricular—right atrial communication in complete transposition of (Elliott et al.), 29

H

Heart, acute effect of alcohol on circulation and on oxygen metabolism of (Ganz), 494
and lungs, rotational cinefluorography of (Dees et al.), 485
block, complete, permanent implantable pacemakers in treatment of (Litwak), 718 (Annot.)
detection of magnetic field of (Baule and McFee), 95
disease, autopsy study of, in Philippines General Hospital. Based on review of 6,000 consecutive cases (Imperial and Felarca), 470
coronary, 290 (B. Rev.)
hematocrit, hemoglobin level, and, in South African Bantu (Walker), 283 (Letter to Editor)
mortality, extremes of, in ethnic groups in Johannesburg, South Africa (Walker), 293
ischemic, changes in serum lipoproteins after large fat meal in normal individuals and in patients with (Harlan and Beischer), 61
dietary carbohydrate and (Yudkin), 835 (Annot.)
physical diagnosis of, 290 (B. Rev.)
diseases of undetermined etiology which occur in Cali, Columbia, pathology of (Correa et al.), 584
failure, congestive, effect of exercise on cardiac performance in human subjects with (Levine et al.), 731
on lack of meaning of (Soloff), 276 (Annot.)
human, connecting pathways between sinus node and A-V node and between right and left atrium in (James), 498
left, intracardiac phonocardiography of, by transseptal left atrial puncture (Beuren and Apitz), 597
necrosis, isoproterenol, effect of hormones on (Rona et al.), 390

Heart—Cont'd
primary reticulum cell sarcoma of (Rucks et al.), 97
problems in histology and pathology of intrinsic nerves of (Rossi), 838 (Annot.)
rate, slow, critical, bundle branch block on cardiac slowing at (Vesell and Lowen), 329
right, complete bypass of (Robicsek et al.), 792
maldevelopment of, persistent venous valves, and coronary artery-ventricular communications (Kauffman and Andersen), 664
self-sealing ventricular septal defects of. Report of two cases (Miller and Kavachevich), 798
"Heart disease, coronary," nonvascular metabolic myocardial vulnerability factor in (Raab), 685
Hematocrit, hemoglobin level, and coronary heart disease in South African Bantu (Walker), 283 (Letter to Editor)
Hemodynamic, coronary, systemic and, effects of diazoxide (Rowe et al.), 636
systemic, effects of amyl nitrite in normal man (Perloff et al.), 460
Hemodynamics, general and coronary, of intact animal, effect of Na_3EDTA-induced hypocalcemia upon (Maxwell et al.), 82
Hemoglobin level, hematocrit, and coronary heart disease in South African Bantu (Walker), 283 (Letter to Editor)
Heparin: metabolism, physiology and clinical application, 723 (B. Rev.)
Hormonal factors, subsidiary, in "coronary heart disease" (Raab), 693
Hormones, effect of, on isoproterenol heart necrosis (Rona et al.), 390
Hydrochloride, pargyline, as antihypertensive agent (Lee), 833
Hydrostatic pressure gradient in pleural sac (Surprenant and Rodbard), 215
Hypercholesteremia, dietary control of, 721 (B. Rev.)
Hypertension, caliber of retinal arteries in (Byrom), 727
clinical experience with monoamine oxidase inhibitor (DL-serine-N^2- isopropylhydrazide (RO 4-1038), in treatment of (Maxwell et al.), 151
current treatment of, with drugs (Wolf et al.), 414
essential, current concepts concerning etiology of (Conway), 409
pulmonary, idiopathic (Farrar), 128
individual and species variability relative to vascular reactivity (Grover et al.), 1
primary, loss of reactivity of pulmonary vascular bed in (Samet and Bernstein), 197
Hypertensive disease, electrosleep as method of neurotropic therapy of patients with (Sergeev), 138 (Annot.)
subject, value of percutaneous renal biopsy in (Roland and Dimond), 140 (Annot.)
Hypertrophy, cardiac, blood pressure, renal failure, and thiamine deficiency, role of, in "coronary heart disease" (Raab), 694
Hypocalcemia, Na_3EDTA-induced, effect of, upon general and coronary hemodynamics of intact animal (Maxwell et al.), 82
Hypothermia, artificial, resuscitation and, 722 (B. Rev.)

I

Incompetence, pulmonary valve, congenital, isolated (Sloman and Wee), 532
Infancy, myxoma of pulmonary valve causing severe stenosis in (Catton et al.), 248
Infarction, myocardial, acute, portable chest roentgenography and its value in (Zatcuhni), 436 (Annot.)
electrocardiographic changes in hypertrophic subaortic stenosis which simulate (Prescott et al.), 42
evaluation of anticoagulant therapy for (Wright and Fahs-Beck), 842 (Letter to Editor)
of anterolateral papillary muscle, electrocardiogram in (Phillips et al.), 338
Inhalation of vasoactive substances, problems in evaluation of cardiovascular responses to (DePasquale and Burch), 720 (Annot.)
Insufficiency, aortic, secondary to spontaneous rupture of fenestrated leaflet (Marcus et al.) 675
cerebral vascular, therapeutic modalities in management of (Fazekas and Alman), 263
mitral, murmurs of aortic stenosis and, masquerading as one another (Burch and Phillips), 439
Interpolation of atrial premature beats of infra-atrial origin due to concealed A-S conduction (Fleischmann), 309
Interval, A_2-OS, significance of rate and output related variations in (Schillig), 644
Intervals, electrocardiographic, during first week of life (Walsh), 36
Interventricular septum, activation of (I); electrogenesis of morphologies of ventricular extrasystolic complexes (Anselmi et al.), 363
Intrinsic nerves of heart, problems in histology and pathology of (Rossi), 838 (Annot.)
Ischemia, acute, of inner layers of ventricular wall (Salisbury et al.), 650
heart disease, changes in serum lipoproteins after large fat meal in normal individuals and in patients with (Harlan and Beischer), 61
dietary carbohydrate and (Yudkin), 835 (Annot.)
Isoproterenol-induced myocardial necrosis, significance of factors modifying development of (Rona et al.), 389

J

Johannesburg, South Africa, extremes of coronary heart disease mortality in ethnic groups in (Walker), 293

K

Kahn, R. H., discovery of augmented unipolar limb leads by, in 1909 (Angle), 719 (Annot.)
Kardiologie, specialni. II, 722 (B. Rev.)

L

Lanatoside C, effect of, on coronary vascular resistance (Gracey and Brandfonbrener), 88
Leads, limb, augmented unipolar, discovery of, by R. H. Kahn in 1909 (Angle), 719 (Annot.)
Leaflet, fenestrated, aortic insufficiency secondary to spontaneous rupture of (Marcus et al.), 675
Lesions, myocardial, catecholamine-induced, experimental, without or with coronary impairment (Raab), 689
Letters to editor, 283, 842
Life, stress of, 721 (B. Rev.)
Limb leads, augmented unipolar, discovery of, by R. H. Kahn in 1909 (Angle), 719 (Annot.)

Lipoproteins, serum, changes in, after large fat meal in normal individuals and in patients with ischemic heart disease (Harlan and Beischer), 61
Lungs, rotational cinefluorography of heart and (Dees et al.), 485

M

Magnetic field of heart, detection of (Baule and McFee), 95
Malformations, cardiovascular, complex, associated with corrected type of transposition of great vessels (Anselmi et al.), 614
Man, singularity of: major problem of therapy (Walsh and Burch), 277 (Annot.)
Medication, preanesthetic, evaluation of, in cardiac patients (Mazzia), 269
Mercurial diuretics, evidence of extrarenal action of; effect of local injection of drugs on uptake and excretion of intradermally injected dye (Threefoot), 73
Mesenteric circulation, atherosclerosis in. Observations and correlations with aortic and coronary atherosclerosis (Reiner et al.), 200
Metabolic, nonvascular, myocardial vulnerability factor in "coronary heart disease" (Raab), 685
Metabolism, clinical, of body water and electrolytes, 848 (B. Rev.)
oxygen, of heart, acute effect of alcohol on circulation and on (Ganz), 494
physiology and clinical application; heparin, 723 (B. Rev.)
Mitral insufficiency, murmurs of aortic stenosis and, masquerading as one another (Burch and Phillips), 439
stenosis in childhood: clinical and therapeutic aspects (Reale et al.), 15
valve, large aneurysm of (Turner and Davies), 538
primary sarcoma of (Forker et al.), 243
Monoamine oxidase inhibitor (DL-serine-N^2-isopropylhydrazide (RO 4-1038), clinical experience with, in treatment of hypertension (Maxwell et al.), 151
Murmurs of aortic stenosis and mitral insufficiency masquerading as one another (Burch and Phillips), 439
systolic, late, significance of (Barlow et al.), 443
Muscle, white, diseases (Walsh and Burch), 139 (Annot.)
Myocardial abscesses (Sanson et al.), 301
infarction, acute, portable chest roentgenography and its value in (Zatuchni), 436 (Annot.)
electrocardiographic changes in hypertrophic subaortic stenosis which simulate (Prescott et al.), 42
evaluation of anticoagulant therapy for (Wright and Fahs-Beck), 842 (Letter to Editor)
necrosis, isoproterenol-induced, significance of factors modifying development of (Rona et al.), 389
nonvascular metabolic, vulnerability factor in "coronary heart disease" (Raab), 685
oxygen economy, role of sympathetic nerve and catecholamine activity in (Raab), 687
Myocarditis, viral (Sanders), 707
Myocardium, contractile tension in (Badeer), 432 (Annot.)
Myopathy, cardiac changes in (Wahi), 748
Myxoma, atrial, right (Morrissey et al.), 4
of pulmonary valve causing severe stenosis in infancy (Catton et al.), 248

N

Na_3EDTA-induced hypocalcemia, effect of, upon general and coronary hemodynamics of intact animal (Maxwell et al.), 82
Necrosis, myocardial, isoproterenol-induced, significance of factors modifying development of (Rona et al.), 389
Nerves, intrinsic, of heart, problems in histology and pathology of (Rossi), 838 (Annot.)
Neurotropic therapy, electrosleep as method of, of patients with hypertensive disease (Sergeev), 138 (Annot.)
Nodal tachycardia, A-V, with block, relationship between digitalis and (Castellanos and Lemberg), 605
Node, sinus, and A-V node, connecting pathways between, and between right and left atrium in human heart (James), 498

O

Obituary, 577
Occlusion and stenosis, absence of, in cases of "coronary heart disease" (Raab), 686
coronary, acute, effects of, on performance of right and left ventricles in intact unanesthetized dogs (Rushmer et al.), 522
unilateral, of pulmonary artery, reflex vasomotor activity during (Aramendía et al.), 53
Opacification of tumor by cineangiocardiography; thymolipoma simulating cardiomegaly (Gunnells et al.), 670
Output related variations, significance of rate and, in A_2-OS interval (Schillig), 644
Oxygen, arterial, saturation, data obtained from hemodynamic studies in 59 patients with pulmonary emphysema, arranged by decreasing values of (Table I) (Evans et al.), 742
consumption, myocardial, role of (Raab), 687
effects of breathing, on atrioventricular conduction (Daly et al.), 321
metabolism of heart, acute effect of alcohol on circulation and on (Ganz), 494
Oxytocin, synthetic (Syntocinon), cardiac effects of (Covino), 627

P

Pacemaker, cardiac, implanted, observations in patients with. I. Clinical experience (Dressler et al.), 325
catheter electrode, rapid method for insertion of (Solomon and Escher), 717 (Annot.)
Pacemakers, cardiac, artificial, use of (Schwedel and Escher), 136
implantable, permanent, in treatment of complete heart block (Litwak), 718 (Annot.)
Pacing, interim, of heart by bipolar endocardial electrode (Dack), 582
Papillary muscle, anterolateral, electrocardiogram in infarction of (Phillips et al.), 338
Pargyline hydrochloride as antihypertensive agent (Lee), 833
Patients with implanted cardiac pacemaker, observations in. I. Clinical experience (Dressler et al.), 325
Pectoris, angina, in father and son (Levine), 49
Pericardia, del cuore, e dei vasi sanguiferi, elementi di anatomia generale e di embryologia del, 722 (B. Rev.)
Peripheral blood flow, alterations in, consequent to maximal exercise (Wilmore and Horvath), 353
circulation, 438 (B. Rev.)

Philippines General Hospital, autopsy study of heart disease in; based on review of 6,000 consecutive cases (Imperial and Felarca), 470
Phonocardiography, intracardiac, of left heart by transseptal left atrial puncture (Beuren and Apitz), 597
Phosphates, inorganic, in acute renal failure (Eliahou), 568 (Annot.)
Pleural sac, hydrostatic pressure gradient in (Surprenant and Rodbard), 215
Pneumoconioses, 290 (B. Rev.)
Preanesthetic medication, evaluation of, in cardiac patients (Mazzia), 269
Precordial accelerography and acceleration ballistocardiography; fundamentals in vibrocardiography (Lohr et al.), 108
displacement and acceleration, methods for recording (Lohr et al.), 108
and precordial acceleration as derived from displacement: relation to cardiac "force" and stroke volume (Lohr et al.), 113
Pre-excitation, ventricular, clinical and experimental, electrocardiographic features in (Rogel and Kaplinsky), 453
Pressure, blood, variability of: basal and casual measurements in adult twins (Osborne et al.), 176
gradient, hydrostatic, in pleural sac (Surprenant and Rodbard), 215
retrograde, and pulse in sinus node artery, study of (James and Nadeau), 343
transmural, and vascular resistance in soft-walled vessels (Rodbard and Kuramoto), 786
ventricular, right, correlation of, with right ventricular weight (Averill et al.), 632
Public, general, dietary fat and (Walker and Sherman), 272 (Annot.)
Pulmonary artery, reflex vasomotor activity during unilateral occlusion of (Aramendía et al.), 53
blood volume, effect of exercise on (Chaffee et al.), 657
emboli, proposed study for prevention of (Prinzmetal and Barach), 573 (Annot.)
emphysema, chronic, circulatory effects of (Evans et al.), 741
diagnosis of cor pulmonale due to (Phillips and Burch), 820
hypertension idiopathic (Farrar), 128
individual and species variability relative to vascular reactivity (Grover et al.), 1
trunk, biventricular, right ventricular aorta and, uncommon form of transposition (Elliott et al.), 478
valve incompetence, congenital, isolated (Sloman and Wee), 532
myxoma of, causing severe stenosis in infancy (Catton et al.), 248
vascular bed, loss of reactivity of, in primary pulmonary hypertension (Samet and Bernstein), 197
veins, selective angiocardiography in diagnosis of varicosity of (Vengsarkar et al.), 396
venous drainage, anomalous, in relation to left superior vena cava and coronary sinus (Snellenand Dekker), 184
Pulsatile blood flow, symposium on, review of papers and discussions presented at (Attinger), 280 (Annot.)
Pulse, retrograde pressure and, in sinus node artery, study of (James and Nadeau), 343
Puncture, left atrial, transseptal, intracardiac phonocardiography of left heart by (Beuren and Apitz), 597

R

Rate and output related variations, significance of, in A_2-OS interval (Schillig), 644
heart, slow, critical bundle branch block on cardiac slowing at (Vesell and Lowen), 329
Reactivity of pulmonary vascular bed, loss of, in primary pulmonary hypertension (Samet and Bernstein), 197
vascular, individual and species variability relative to; pulmonary hypertension (Grover, et al.), 1
Reflex vasomotor activity during unilateral occlusion of pulmonary artery (Aramendía et al.), 53
Regurgitation, valvular, studies in cardiovascular model on arterial dilution curve of (Levinson et al.), 767
Renal biopsy, percutaneous, value of, in hypertensive subject (Roland and Dimond), 140 (Annot.)
cardiovascular and, diseases, yearbook of, 438 (B. Rev.)
failure, acute, inorganic phosphates in (Eliahou), 568 (Annot.)
blood pressure, cardiac hypertrophy, and thiamine deficiency, role of, in "coronary heart disease" (Raab), 694
Reserpine (Frieden), 714
Resistance, vascular, coronary, effect of lanatoside C on (Gracey and Brandfonbrener), 88
transmural pressure and, in soft-walled vessels (Rodbard and Kuramoto), 786
Resistances, vascular, series (Hyman and Winsor), 840 (Annot.)
Responses, cardiovascular, to inhalation of vasoactive substances, problems in evaluation of (DePasquale and Burch), 720 (Annot.)
Resuscitation and artificial hypothermia, 722 (B. Rev.)
cardiac, epinephrine in (Pearson and Redding), 210
Reticulum cell sarcoma, primary, of heart (Rucks et al.), 97
Retinal arteries, caliber of, in hypertension (Byrom), 727
Retrograde pressure and pulse in sinus node artery, study of (James and Nadeau), 343
Roentgenography, chest, portable, and its value in acute myocardial infarction (Zatuchni), 436 (Annot.)
Rupture, spontaneous, of fenestrated leaflet, aortic insufficiency secondary to (Marcus et al.), 675

S

Salt content of diet, effect of, on development of isoproterenol heart necrosis (Rona et al.), 390
Sanguiferi, vasi, elementi di anatomia generale e di embryologia del cuore, del pericardio, e dei, 722 (B. Rev.)
Sarcoma, primary, of mitral valve (Forker et al.), 243
reticulum cell, primary, of heart (Rucks et al.), 97
Septal defect, ventricular, acyanotic, with both great vessels from right ventricle (Engle et al.), 755
defects, ventricular, self-sealing, of heart. Report of two cases (Miller and Kovachevich), 798
Septum, interventricular, activation of (I); electrogenesis of morphologies of ventricular extrasystolic complexes (Anselmi et al.), 363
ventricular, congenital aneurysms of (Shumacker and Glover), 405

Serum lipoproteins, changes in, after large fat meal in normal individuals and in patients with ischemic heart disease (Harlan and Beischer), 61
Sinus, coronary, anomalous pulmonary venous drainage in relation to left superior vena cava and (Snellen and Dekker), 184
node and A-V node, connecting pathways between, and between right and left atrium in human heart (James), 498
artery, study of retrograde pressure and pulse in (James and Nadeau), 343
Special report, 280
Starvation, effect of, on isoproterenol cardiac necrosis (Rona et al.), 391
Stenosis, absence of coronary occlusion and, in cases of "coronary heart disease" (Raab), 686
aortic, and mitral insufficiency, murmurs of, masquerading as one another (Burch and Phillips), 439
comparison of normal apexcardiogram and its second derivative with apexcardiogram and accelerogram in (Lohr et al.), 123
mitral and aortic, comparison of accelerographic amplitudes over apex in (Lohr et al.), 121
in childhood: clinical and therapeutic aspects (Reale et al.), 15
severe, myxoma of pulmonary valve causing, in infancy (Catton et al.), 248
subaortic, hypertrophic, electrocardiographic changes in, which simulate myocardial infarction (Prescott et al.), 42
Stokes-Adams syndrome, management of (Dack), 579
Stress and occlusive coronary artery disease (Pearson), 836 (Annot.)
of life, 721 (B. Rev.)
Subaortic stenosis, hypertrophic, electrocardiographic changes in, which simulate myocardial infarction (Prescott et al.), 42
Surgery, vascular, 847 (B. Rev.)
atlas of, 848 (B. Rev.)
Surgical, thoracic, management, 723 (B. Rev.)
Sympathetic activity, cardiac, potentially pathogenic, factors which exaggerate, in "coronary heart disease" (Raab), 691
Symposium on pulsatile blood flow, review of papers and discussions presented at (Attinger), 280
Systemic and coronary hemodynamic effects of diazoxide (Rowe et al.), 636
hemodynamic effects of amyl nitrite in normal man (Perloff et al.), 460
Systolic murmurs, late, significance of (Barlow et al.), 443

T

Tachycardia, atrial, paroxysmal, with block, digitalis-associated, countershock conversion of (Corwin et al.), 804
nodal, A-V, with block, relationship between digitalis and (Castellanos and Lemberg), 605
Tension, contractile, in myocardium (Badeer), 432 (Annot.)
Terminology, consistent, proposal for comprehensive classification and; A-V dissociation (Pick), 147
Therapeutic agent, evaluation of angiotensin as (Singer et al.), 566
Therapy, current, 1963, 290 (B. Rev.)
major problem of; singularity of man (Walsh and Burch), 277 (Annot.)
Thiamine deficiency, role of blood pressure, cardiac hypertrophy, renal failure, and, in "coronary heart disease" (Raab), 694
Thoracic surgical management, 723 (Annot.)
Thrombogenesis, "emergency reaction" in, and in atherogenesis (Shimamoto), 572 (Annot.)
Thymolipoma simulating cardiomegaly: opacification of tumor by cineangiocardiography (Gunnells et al.), 670
Transmural pressure and vascular resistance in soft-walled vessels (Rodbard and Kuramoto), 786
Transposition, complete, of great vessels, left ventricular–right atrial communication in (Elliott et al.), 29
of great vessels, complex cardiovascular malformations associated with corrected type of (Anselmi et al.), 614
uncommon form of, right ventricular aorta and biventricular pulmonary trunk (Elliott et al.), 478
Trunk, pulmonary, biventricular, right ventricular aorta and, uncommon form of transposition (Elliott et al.), 478
Tumor, opacification of, by cineangiocardiography; thymolipoma simulating cardiomegaly (Gunnells et al.), 670
Twins, adult, basal and casual measurements in; variability of blood pressure (Osborne et al.), 176

U

Uremic acidosis: some alternative views (Findley and Briggs), 142 (Annot.)

V

Valve, mitral, large aneurysm of (Turner and Davies), 538
primary sarcoma of (Forker et al.), 243
pulmonary, incompetence, congenital, isolated (Sloman and Wee), 532
myxoma of, causing severe stenosis in infancy (Catton et al.), 248
Valves, cardiac, normal and diseased, dynamics of (Amador et al.), 777
venous, persistent, maldevelopment of right heart, and coronary artery-ventricular communications (Kauffman and Andersen), 664
Valvular regurgitation, studies in cardiovascular model on arterial dilution curve of (Levinson et al.), 767
Varicosity of pulmonary veins, selective angiocardiography in diagnosis of (Vengsarkar et al.), 396
Vascular bed, pulmonary, loss of reactivity of, in primary pulmonary hypertension (Samet and Bernstein), 197
insufficiency, cerebral, therapeutic modalities in management of (Fazekas and Alman), 263
reactivity, individual and species variability relative to; pulmonary hypertension (Grover et al.), 1
resistance, coronary, effect of lanatoside C on (Gracey and Brandfonbrener), 88
transmural pressure and, in soft-walled vessels (Rodbard and Kuramoto), 786
resistances, series (Hyman and Winsor), 840 (Annot.)
surgery, 847 (B. Rev.)
atlas of, 848 (B. Rev.)
Vasoactive substances, problems in evaluation of cardiovascular responses to inhalation of (DePasquale and Burch), 720 (Annot.)

Vasomotor activity, reflex, during unilateral occlusion of pulmonary artery (Aramendía et al.) 53
Veins, pulmonary, selective angiocardiography in diagnosis of varicosity of (Vengsarkar et al.), 396
Vena cava, superior, left, and coronary sinus, anomalous pulmonary venous drainage in relation to (Snellen and Dekker), 184
Venous drainage, pulmonary, anomalous, in relation to left superior vena cava and coronary sinus (Snellen and Dekker), 184
valves, persistent, maldevelopment of right heart, and coronary artery-ventricular communications (Kauffman and Andersen), 664
Ventricle, right, acyanotic ventricular septal defect with both great vessels from (Engle et al.), 755
Ventricles, right and left, effects of acute coronary occlusion on performance of, in intact unanesthetized dogs (Rushmer et al.), 522
Ventricular aorta, right, and biventricular pulmonary trunk, uncommon form of transposition (Elliott et al.), 478
extrasystolic complexes, electrogenesis of morphologies of. I. Activation of interventricular septum (Anselmi et al.), 363
intramural hemodynamics and microcirculation, role, of (Raab), 686
left right atrial–, communication in complete transposition of great vessels (Elliott et al.), 29
pre-excitation, clinical and experimental, electrocardiographic features in (Rogel and Kaplinsky), 453
pressure, right, correlation of, with right ventricular weight (Averill et al.), 632
septal defect, acyanotic, with both great vessels from right ventricle (Engle et al.), 755
defects, self-sealing, of heart. Report of two cases (Miller and Kovachevich), 798
septum, congenital aneurysms of (Shumacker and Glover), 405
volume, right, measurement of, by cineangiofluorography (Reedy and Chapman), 221
wall, acute ischemia of inner layers of (Salisbury et al.), 650
Vessels, great, both, from right ventricle, acyanotic ventricular septal defect with (Engle et al.), 755
complex cardiovascular malformations associated with corrected type of transposition of (Anselmi et al.), 614
left ventricular–right atrial communication in complete transposition of (Elliott et al.), 29
human cerebral blood, methods for qualitative and quantitative study of; studies in cerebral circulation (Hale and Reed), 226
soft-walled, transmural pressure and vascular resistance in (Rodbard and Kuramoto), 786
Vibrocardiography, fundamentals in. Precordial accelerography and acceleration ballistocardiography (Lohr et al.), 108
Viral myocarditis (Sanders), 707
Volume, blood, pulmonary, effect of exercise on (Chaffee et al.), 657
ventricular, right, measurement of, by cineangiofluorography (Reedy and Chapman), 221

W

Wall, ventricular, acute ischemia of inner layers of (Salisbury et al.), 650
Water, body, and electrolytes, clinical metabolism of, 848 (B. Rev.)
Wave, fibrillatory, size, as clue to etiological diagnosis (Culler et al.), 435 (Annot.)
Weight, ventricular, right, correlation of right ventricular pressure with (Averill et al.), 632
White muscle diseases (Walsh and Burch), 139 (Annot.)
Wood, Paul Hamilton. Obituary, 577
Work, cardiac, role of, and of sympathogenic catholamines in clinical syndrome of "coronary heart disease" (Raab), 690
WPW with incomplete left bundle branch block, histopathologic study of atrioventricular communications in case of (Lev et al.), 399

Z

Zentralnervösen regulation, probleme der, 145 (B. Rev.)
